SUMMARY

B.Tech CSE (Data Science) student with hands-on experience in full-stack development, machine learning, and data analytics. Skilled in building scalable web applications, AI-driven solutions, and interactive dashboards. Strong problem-solving abilities with national-level hackathon achievements and a focus on developing impactful, real-world systems.

EDUCATION

Vishwakarma Institute of Information Technology, Pune <i>B.Tech – CSE (Data Science)</i> — CGPA: 9.27/10	2023 – 2027
M.G.College, Chopda, Jalgaon <i>12th</i> — MSBHSE — Percentage: 82.67/100	2022 – 2023
Pankaj Vidyalaya, Chopda, Jalgaon <i>10th</i> — MSBHSE — Percentage: 100/100	2020 – 2021

EXPERIENCE

Austere Systems Limited, Pune <i>Software Developer Intern</i> - Contributing to the development and maintenance of software applications. - Gaining practical experience in a collaborative, real-world development environment. - Working under the guidance of senior mentors to strengthen technical and problem-solving skills.	June 2025 – Oct 2025
--	----------------------

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript, TypeScript, HTML, CSS
Database: MySQL, MongoDB, SQL, Firebase
Frontend: React, Tailwind, Next.js **Backend:** Node.js, FastAPI, Flask, REST APIs
AI & ML: LLMs, Neural Networks, NLP, PyTorch/TensorFlow (basic), AI Inference, Multimodal AI, Generative AI
Tools & Technologies: VS Code, Jupyter Notebook, Git/GitHub, Power BI, Tableau, Matplotlib, Linux, OS, AWS, WordPress, UI/UX

PROJECTS

- 1. FarmaZo – Direct Market Access Platform** | [Link](#)
 - Developed a full-stack AgriTech platform for direct farmer-to-company trade with transparent pricing.
 - Built a role-based marketplace for selling and renting agricultural machinery.
 - Implemented scalable REST APIs and secure authentication using Node.js, Express, and Firebase.
 - Tools:** React, Node.js, Express, Firebase, HTML, CSS, MERN.
- 2. EV Battery Tracker** | [Repository](#)
 - Developed a web-based EV battery tracking system to ensure safe disposal and regulatory compliance.
 - Implemented secure backend logic using Node.js with a GPS-free tracking approach for reliable data handling.
 - Tools:** Node.js, JavaScript, HTML, CSS, MongoDB.
- 3. Agentic AI Autonomous Hackathon Assistant** | [Repository](#)
 - Built a full-stack multi-agent AI platform that transforms hackathon problem statements into project roadmaps through automated research, feature ideation, task allocation, timeline planning, and architecture generation.
 - Implemented LLMs, RAG, LangGraph, vector databases, and tool-calling agents to analyze existing solutions, suggest innovative features, generate code, and automate documentation and presentations.
 - Tools:** React.js, Node.js, FastAPI, Python, LangGraph, LangChain, RAG, LLMs, GitHub API, Tavily Search.

ACHIEVEMENTS

- TechVortex 3.0 (2026):** 1st Prize at national level techathon held at SIT, Pune
- Innovate You Techathon 3.0 (2026):** Won Best Solution Prize – AgriTech (National-Level Hackathon)
- IET India Scholarship 2023:** West Zone Rank 20 among 65,752 applicants.
- Fast 2 Hack Hackathon:** Top 5 finalist at Symbiosis Institute of Technology, Pune.
- SIH 2024:** Selected in Top 50 teams; built an AgriTech app for direct farmer market access.
- Claude 101 Certification:** Gained foundational knowledge of AI systems and prompt engineering using Claude for practical applications.
- MERN Stack Certification:** LinkedIn Learning Certified in MongoDB & MERN full-stack development.
- CCNA Certification:** Completed CCNA: Introduction to Networks (Cisco Networking Academy).
- Patent Granted:** AgriTrade smart agricultural marketplace.
- Copyright Granted:** AI-based cybersecurity project.
- Clubs:** Technical Team Member and Ladies Representative (DSSA), Community Member (GDG).
